

Community Participation Policy

1. Commit, respect and support the development of a culture of care of the local environment.
2. Integrate with institutions, groups and local organizations to maintain constant dialogue regarding their concerns and needs
3. Encourage the purchase of services from local suppliers.
4. Recruit local staff creating wealth and welfare in the area.
5. Conserving biodiversity of our environment by participating in different activities.
6. Actively participate in environmental and social projects developed in our community in the form of cooperation or donations.
7. Promote our local culture, thereby encouraging the use of tourist attractions, tours and other activities in our community and our cuisine with the introduction of dishes on our menu
